SCHENCE'S OWN CASE AND HOW HE WAS CURED OF CONSUMPTION. Many years ago, whilst residing in Philidelphia, I had progressed gradually into the last stage of Pulmonary Consumption. All hopes of my recovery being dissipated, I was advised by my physician, Dr. Parrish, to remove into the country. Moorestown, New Jersey, being my native place, I was removed theither. My father and all his family had lived and died there-and died of Pulmonary Consumption. On my arrival I was put to bed, where I lay for many weeks in what was deemed a hopeles condition. Dr. Thornton, who had bee father's family physician, and had attended his

thought my case entirely beyond the reach of medicine, and decided that I must die, and gave me one week to arrange my temporal affairs. In this appearantly hopeless condition, I heard of the remedies which I now make and sell. It seemed to me that I could feel them working their way, and penetrating every nerve fibre, and tissue of my system. My lungs and liver put on a new action, and the morbid matter which for years had accumulated and irritated the different organs of the body, was eliminated, the tubercles of my lungs ripened, and I expectorated from my lungs as much as a pint of yellow offensive matter every As this expectoration of matter sul morning. As this expectoration of matter sub-sided, the fever abated, the pain left me, the cough ceased to harrass me, and the exhausting night-sweets were no longer known, and I had refreshing sleep, to which I had long been a

stranger. My appetite now began to return, and at times I found it difficult to restrain my-self from eating too much; with this return of health, I gained in strength, and now am fleshy I am now a healthy man, with a large healed cicatrix in the middle lobe of the right lung and the lower lobe hepatized with complete adhesion of the pleura. The left lung is sound, and the upper lobe of the right one is in a tolerably healthy condition. Consumption at that time was thought to be an incurable disease, by every one, physician

as well as those who were unlearned in medi cine—especially such cases as were reduced to the condition I was in. This induced many people to believe my recovery only temporary. I now prepared and gave the medicine to consumptives for some time, and made many won-derful cures; and the demands increased so rapidly that I determined to offer them to the public, and devote my undivided attention to lung diseases. In truth I was next to forced to it for people wound send for me far and near, to ascertain whether their cases were like mine. For many years, in conjunction with my principal office in Philadelphia, I have been making regular professional visits to New York, Boston, Baltimore, and Pittsburg. For several years past I have made as man

as five hundred examinations weekly with the "Respirometer." For such examination my each patient the true condition of his disease and tell him frankly whether he will get well. The great reason why physicians do not cure Consumption is, that they try to do too much they give medicines to stop the cough, to stop the night-sweats, hectic fever, and by so doing they derange the whole digestive system, locking up the secretions, and eventually the patient

The Pulmonic Syrup is one of the most valuable medicines known. It is nutrient, powerfully tonic, and healing in itself. It contains no opium, yet loosens the phlegm in the bronchial tubes, and nature throws it off with little exertion. One bottle frequently cures an ordinary cold; but it will be well first to take a dose of Schenck's Mandrake's Pills to cleanse the stomach. The Pulmonic Syrup is readily di-gested and absorbed into blood, to which it imparts its healing properties. It is one of the best preparations of iron in use; it is a powerful tonic of itself; and when the Seaweed Tonic issolves the mucus in the stomach, and is carried off by the aid of the Mandrake Pills, a healthy flow of gastric juice, good appetite an good digestion follow. and pleasant; no bad effects like when using Bourbon whisky, which disorders the stomach torpers the liver, locks up all the secretions urns the blood into water, dropsy sets in, and the patient dies suddenly.

Bourbon whiskey is recommended now-adays by almost every physician. Many patients that visit my rooms, both male and female, are stupefied with this poison. The relief is temporary. If they cough they take a little whisky; if they feel weak and feeble they take a ittle whisky; if they cannot sleep they take a little whisky; and they go on in this way, re-quiring more and more until they are bloated up, and imagine they are getting fleshy. The stomach, liver, and digestive powers are com-pletely destroyed, and lose their appetite for

first day of January, in the year one thousand eight hearty meal, and a little of it taken before breakfast will give a tone to the stomach which few medicines possess the power of doing. The MANDRAKE PILLS may be taken with entire safety by all ages and conditions,
